## VI- READING COMPREHENSION (20 marks)

#### Read the following passage, then answer the questions below:

A robot is a special kind of machine. It is a machine that is made of steel and wires. Robots follow instructions that come from a computer. It does not make mistakes. And it does not get tired. Robots never complain. Some robots are used to make things. For example, robots can help to make cars. Some robots are used to explore amazing places like volcanoes. They are dangerous places.

Some robots are <u>useful</u> in houses. They can clean things. These robots can help vacuum your house. Some robots can even recognize words. They can be used to help answer telephone calls.

The first real robot was made in 1961. It was called "Unimate". It was used to help make cars. It looked like a giant arm. In the future robots will do things that we can't do or they will do things that we don't want to do. They can be helpful by fighting fires. They will help us fight wars. They will help us fight sickness. They will help make life better.

# الصفحة السادسة النافة الإنجليزية / الصف الثامن / نهاية الفصل الدراسي الثاني 2016 – 2017
