VI. Reading Comprehension (20 Marks)

Read the following passage , then answer the questions below:

A material is what something is made of. There are five important and **essential** materials. Things are made of metal, glass, wood, cloth or plastic. Let's talk about metal first. Metal is very heavy, hard and strong. We use metal to make lots of things like forks, knives and keys.

Next, let's have the glass. Glass is very smooth. It is not as heavy as metal. It is hard but not strong. It breaks very easily! We use **it** because it is clear. You can see through glass. That's why we use it for windows. Now let's talk about wood.

Wood is different from glass. It is lighter than metal and glass. It is not as strong as metal but much stronger than glass. We use wood to make lots of things. Things made from wood are usually light, hard and strong. Chairs, tables and pencils are made of wood.

What about cloth. Cloth is very light. It is much lighter than wood. And it is very soft. We use cloth to make lots of things like clothing and blankets.

We come to plastic now. Plastic is also very light, but it is different from cloth. Plastic can be used to make thin plastic bags. These are soft, but plastic can also be used to make bicycle helmets. A helmet and a bag seem different, but they are both made of plastic.
