VI- Reading Comprehension and Summary Making (150 Marks)

Read the following passage carefully, then answer the questions below:

Tess was eight years old when she heard her Mom and Dad talking about her little brother, Andrew. All she knew was that he was very sick and they were completely out of money. They were moving to an apartment complex next month because Daddy didn't have the money for both the doctor bills and for the house payment. Only a very **costly** surgery could save her brother now. She heard her Dad say to her Mom, "Only a miracle can save him now."

Tess went to her bedroom and pulled a glass jelly jar from its hiding place in the closet. She poured all the change out on the floor and counted **it** carefully. She placed the coins back in the jar and **headed** straight for the nearest pharmacy.

Tess waited patiently for the pharmacist to give her some attention but he was too busy talking to another man. She twisted her feet to make a friction noise. Nothing happened. She cleared her throat with the most horrible sound she could collect. This didn't do any good, either. Finally she took a quarter from her jar and knocked on the glass counter. That worked well! "And what do you want?" the pharmacist asked in an annoyed tone of voice. "I'm talking to my brother from Chicago whom I haven't seen for ages." "Well, I want to talk to you about my brother," Tess answered back in the same annoyed tone. "He's really, really sick, and I want to buy a miracle." "I beg your pardon?" said the pharmacist. "His name is Andrew and he has something bad growing inside his head and my Daddy says only a miracle can save him now. So, how much does a miracle cost?"

The other man bent down and asked the little girl, "What kind of a miracle does your brother need?" "I don't know," Tess replied with tears in her eyes. "I just know he's really sick and Mommy says he needs an operation, but my Daddy can't pay for it, so I want to use my money." "How much do you have?" asked the man. "One dollar and eleven cents," Tess answered. "And it's all the money I have, but I can get some more if I need to."

The man smiled and asked the little girl to take him where she lived. He was a surgeon from Chicago who specialized in brain surgery. The operation was completed successfully without charge and it wasn't long until Andrew was home again and doing well.
