Pearl diving in Kuwait (13 Marks)

Exposition of ideas - paragraphing- numbers of sentences	10	15
Pre- writing techniques [brain storming- mind mapping- outlining]	2	
Spelling & grammar	2	
Handwriting – spacing & punctuation	1	

VI-READING COMPREHENSION (20 Marks)

Read the following passage, then answer the questions below:

A robot is a machine. But it is not just like any machine. It is a special kind of machine. It moves, follows instructions, rarely makes mistakes, and it does not get tired. The first real robot was made for making cars as an industrial robot. It looked like a **giant** arm. 40% of all the robots in the world are in Japan, making Japan the country with the highest number of robots.

Robots are all around us. Some robots are used to make things. For example, robots are used to clean houses. And others can even know words. They can be used to help answer telephone calls. Robots have replaced humans in performing dangerous tasks which humans prefer not to do, or are unable to do because of size limitations, or which take place in extreme environments such as outer space or the bottom of the sea.

In the future, we will have even more robots. They will do things that we can't do, or they will do things that we don't want to do. They will also do things that are too dangerous for us. For example, Robots will help us fight fires and rescue people when **they** are trapped in burning buildings. They will help us discover things.

A) Choose the correct answer from a, b, c and d (4 x 2.5 = 10 Marks)

- 23) The best title for this passage could be
- a. Telephones
b. Computers
c. **Robots**
d. Cars
- 24) The first robot was used to
- a. **make cars**
b. clean houses
c. fight fires
d. know words
- 25) The word **they** in the 3rd paragraph, refers to
- a. things
b. **people**
c. buildings
d. tasks
- 26) The underlined word **giant** in the 1st paragraph, means.....
- a. small
b. **huge**
c. tiny
d. pretty

B) Answer the following questions: (4 X 2.5 = 10 Marks)

27) Which country has the highest number of robots?

Japan has the highest number of robots.

28) What makes a robot different from a simple machine?

It moves, follows instructions, rarely makes mistakes, and it does not get tired.

29) Why are robots used in extreme environments instead of Man?

Because of size limitations and because of danger.

30) How can future robots help people when they are in danger?

They will fight fires and rescue people when they are trapped in burning buildings.
