VI- Reading Comprehension (110 Marks)

Read the following passage carefully, then answer the questions :

Right now, I am looking at a shelf full of books, relics, old-timers and antiques. Yes, that's right. If you have some spare cash and are looking to enhance your reading experience, then I highly invite you to purchase an e-reader. E-readers are replacing the old books, and I welcome **them** with open arms.

An e-reader is a device that allows you to read e-books. An e-book is a book which is published in digital form, consisting of text, images, or both. It is produced on, published through, and is readable on computers or other electronic devices. The Oxford Dictionary of English defines the e-book as "an electronic version of a printed book". E-readers are superior to printed books in many aspects. One of these aspects is saving space. The average e-reader can store thousands of digital books, providing a real library at your fingertips. Moreover, being the size and weight of a thin cover, the e-reader itself is relatively **petite**. It is easy to hold and can fit in a pocketbook or briefcase easily. Perhaps the only drawback to the space-saving aspect of an e-reader is that it requires you to find new things to put on your shelves.

In addition, e-readers are superior to books because they are environmentally friendly. The average novel is about 300 pages long. So, if a novel is printed 1000 times, it will use 300,000 pieces of paper. That's a lot of paper! If there are about 80,000 pieces of paper in a tree, this means it takes almost 4 trees to make these 1000 books. Since e-readers use no trees, they represent a significant amount of preservation in terms of the environment and its resources.

Finally, e-readers are also superior to books because they provide helpful reading tips and tools that printed books do not. An e-reader allows its user to customise letter size, font, and line spacing. It also allows highlighting and electronic bookmarking. Furthermore, it grants users the ability to get an overview of a book and then jump to a specific location based on that overview. While these are all nice features, perhaps the most helpful of all is the ability to get dictionary definitions at the touch of a finger. On even the most basic e-reader, users can get instant definitions without having to hunt through a physical dictionary.

34. How harmful is it to print books?

It takes almost 4 trees to make the paper needed for printing.

VII- Summary Making (4 X 15 = 60 Marks)

Read the following passage carefully, then answer the question below

It is well known that some cultures prefer sons to daughters. Sons are wanted because they can work to help the family earn income. Also, sons will be able to support their parents when the parents are old. In some countries, sons are important because the family name will continue for another generation. This is because the wife in these cultures take her husband's family name, and sometimes belongs to the husband's family. Not only that, but having a daughter can sometimes cause difficulty for the family. In India, for example, having a daughter can be a burden. Families must save a lot of money to pay a dowry when the girl gets married. According to a survey done in 2000, people in some developed countries would prefer to have daughters. Researchers said that parents in these societies do not have the same economic reasons that exist in other countries, so they do not need to have a son to help make money.

=====

In four sentences of your own, summarize and paraphrase the passage in answer to the following question:

Why do people prefer to have sons in some countries?

In some countries people prefer to have sons. They want to increase the income of the family. Sons help their parents when they become old. They will continue to hold the name of the family. Sometimes a daughter can represent a burden for the family when she gets married.
