# B- READING COMPREHENSION (16Marks) Read the following text carefully, then answer the questions below:

**16** 

A robot is a special invention. It can walk and talk. It follows orders from a computer. It does not make mistakes. Robots do not get tired or bored. They can work all the day in different places without money or food. Scientists in Japan built a" friendly robot". **They** made it to help and serve people in a caring and clever way. It looks like a man. It has got two eyes that could **recognise** faces. It knows about 10,000 words and can use them to talk to people about the weather and other subjects. It can help you at home. Also, it can send emails and messages.

Robots are everywhere. There are many kinds of them. People use robots to do hard work quickly. Some robots are used to work in dangerous places to keep people safe. Spacemen also send robots to far planets to collect information about space. Robots are also found in planes to help the pilots during the flights. Robots are useful but they are not smart enough as people.
